

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The American Botanist and The Fern Bulletin

Have removed to JOLIET, ILL.

No changes except the address !

THE FERN BULLETIN is the only publication in the world devoted to Ferns.

THE AMERICAN BOTANIST is the only American Magazine devoted to Ecological Botany.

YOU NEED THEM BOTH—SAMPLES FREE.

When answering advertisement mention Mycological Bulletin.

Supplies for the Botanist

\$.30

Tripod Dissecting Microscope

A convenient and portable instrument for botanists, as it can be used for dissection when mounted, or the lens may be unscrewed and used as a pocket glass. It gives a large, clear image.

Triple Aplanats

This magnifier consists of a crown lens cemented between

\$3.25

two flint lenses and is thoroughly achromatic. It gives clear, flat images, free from distortion. The mountings are German silver, nickel plated.

DIAMETER, 3-4 IN. \$1.50

Coddington Magnifier

This magnifier gives clear and perfect definition. The mountings are neatly finished and nickered.
